

# The Trained Nurse and Hospital Review

38-40 West 32nd Street ∴ ∴ New York City

## PREMIUM OFFERS

IN addition to the very liberal eight months offer for \$1.00 on the accompanying circular, any nurse who subscribes can have, free of charge, any one of the books named below.

### SOLUTIONS

by Edith M. Rice, R. N.

3rd EDITION REVISED AND ENLARGED

¶ A handy little pamphlet containing all the information on solutions a nurse is likely to need, and all the tables, general directions, etc. Just the thing to take with you on a case.

### IF I FORGET

by Edith M. Rice, R. N.

¶ A pamphlet giving useful hints and reminders of which every nurse has need.

¶ Among the subjects treated are the following: Abbreviations, Accidents and Emergencies, Apothecaries Weights and Apothecaries Measures, Bites, Enemata, Hemorrhages, Household Remedies, Hypodermics, Improvisations, Nursing Points, Poisons, Poultices, Preparing for an Operation, Rules for Nurses in Obstetrics, Saline Solutions, Sterilization, Tables and Solutions.

¶ A most useful little book to take with you on a case.

### TEN LESSONS IN CHEMISTRY

by Minnie Goodnow

*Superintendent Bronson Hospital, Kalamazoo, Mich.*

THESE lessons are the outgrowth of what the author found to be a crying need in the teaching of nurses, and are designed to give not a chemical education, but only sufficient knowledge on the subject to enable them to comprehend their work in other lines.

The Secretary of the State Board of Nurse Examiners of Denver, Colorado, writes:—"I wish to express my appreciation of the Ten Lessons in Chemistry by Miss Minnie Goodnow. I think them very helpful to all who read them."

### THE TUBERCULOSIS NURSE AND HER WORK

by Mabel Jacques

AND

### THE MUNICIPAL TUBERCULOSIS NURSE

by Otto R. Eichel, M. D.

A valuable little book for all those who are interested in the care of the consumptive, or those who wish to take up Tuberculosis work in any of its branches, in hospital or sanitarium, in district or municipal work, or in private practice. This little book is written by those who have had actual experience in the work, and is full of practical information.

### RECIPES I HAVE TESTED

by Edith M. Rice, R. N.

This little book is compiled by Miss Rice from recipes that she has collected from time to time and tested in her own work. It can be carried by the nurse to each case, and while it will be helpful to all nurses, to the nurse whose training in invalid cookery has been deficient, it will prove a veritable "First Aid."

IF NOT CALLED FOR IN 8 DAYS, RETURN TO
