but I never give up hope the anchor of every human heart. It is not yet two years since I left Salt Lake and Oh the things I've done and the things I have learned. Perhaps I will come back there sometime, maybe not. I am thinking strongly of entering Lavis Hospital in San Francisco to take a Post Graduate Course which will qualify me to take a better Government position. Lavis is the best hospital on the Pacific Coast and one of the best in the United States. There is a Medical College belonging to it in which the nurses of the hospital get much of the higher education in Medical Science and Surgery. Then there is the environment of high medical men and women. The College Students are

all required to be graduates of some standard college and must be men of character. I must close for want of time for I have so much work to do.

Give my regards to your brother and family.

With love to my father

As ever, affectionately your
daughter Effie M. Power,
