Dear Kerry,

The Center for Women's Studies and Services, located in downtown San Diego, serves women throughout San Diego City and county. We provide groups, classes, personal and vocational counseling, as well as crisis intervention, referral, and advocacy services for battered women and women who have been raped.

We have welcomed the network and information provided by the Southern California Coalition on Battered Women. In the past year, we have participated in a conference put on by The Coalition and found it to be very well organized and informative. We have also received technical assistance from The Coalition which was essential to several women we worked with.

All of us at the Center support The Coalition and its efforts. We feel that networking is an important part of the services women need and the network The Coalition provides is essential for our work in Southern California. We hope The Coalition will continue in these efforts.

Sincerely,

Joyce Lane  
Assistant to the Director
