San Diego, California, August 21 1910

Dear Mother and Babes-

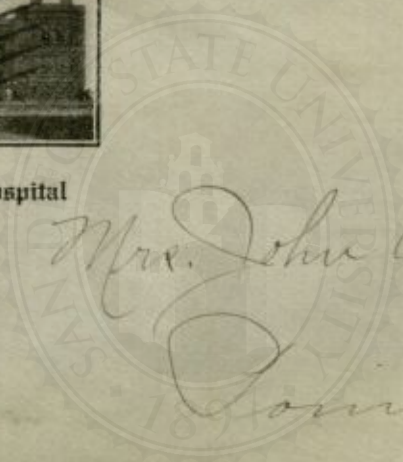

I got home the other night but it was twenty minutes late. I explained to Miss Smith the next morning and she was most kind about it. It is a very grave offense you know and I was not a little worried about it.

I received a letter from Father, it didn't sound very good. I am sorry he is finding it so difficult to promote his mining interests.

Mother, I can't find that pattern any place and as I am very anxious to make my dress would like for you to make a little search around and if you can find it mail it to me. I rather expect to be out Wednesday but can never be quite certain so don't be disappointed if I don't get there. Hope you are all well.
With love - your daughter & sister Effie
