FIRST-CLASS WORK OUR SPECIALTY

844 SIXTH STREET

SAN DIEGO, CALIFORNIA, Oct 15 1907

Prof. Black

Dear Sir

We would be much obliged to you if you would kindly give us the name of your informant as he may some day have the sense to ask for work in this shop, and we do not desire to give our days work to a so-called painter who is either a fool or a liar or both. It is a self-evident fact that the man whom you consulted must be classed that way or he would have known better ~~that~~ than to have made the assertion that 8 to 10 lbs of white lead would make one gallon of flat color.

Now Mr Black will you please consult three or four reputable contracting painters here in San Diego as you promised me, and at your earliest convenience let us know your intention is regard to that bill, and oblige

Respectfully Yours

Ewing & Ayres
