Dear Miss Power

We were very glad indeed to get your letter, and although, to not write letters, is one of my failings, and Dr is worse, I had intended your letter should have been answered long before this. I will answer your questions first but I expect it will be old news before this time if you have been writing to any one here. I suppose Mrs De Velrous got her telescope as Miss Forsythe got it one evening saying she was going to see her and would take it to her. The work was finished on the hospital quite a while ago, but the house was as full last winter as it was the winter before Miss Forester was superintendent of nurses until some time in January I think. Then she went home. She was married to Dan Northrup on the 20th of Feb. They live with the Doctor. A Miss Dason came as superintendent when Miss Forester quit. She was only here a few

months. Then Mrs Northrup came and stayed until they could get someone else. I think she was here about 6 weeks. Now they have a Miss Morris I think is her name, and Miss Kattie Maloney is assistant superintendent.

Mr Maloney is back as superintendent. Mr Gussweller was here until the first of Feb. His wife has died since he left here.

I think there are not many girls here that were here when you were. Miss Forsyth is here and Miss Bruner came back and is here yet. The new superintendent is from Boston. I heard some time ago that Miss Breen was busy the most of the time. I don't know if I spell all of the names right or not but I guess you will know who I mean.

I expect some one that is around over the hospital more, could tell you lots of things you would like to know, but I have told all I can think of. Will be glad to hear from you any time you will write. Regards and best wishes from Dr and my self. Ida Hunt.
