

Stretch Out

"Stretch Out" is a phrase used largely by jazz musicians. It denotes indulging in extended solos and longer personal musical challenges. These extended solos are not padded or prolonged but have a personal special kind of concentration and relaxed effectiveness known in musical circles as "soul."

The Men's Fellowship of Christ United will "stretch out" on October 24 by presenting a dinner and program honoring one of America's greatest trumpeter's, Mr. Walter Fuller.

This event will immediately follow the regular morning service. There will be no charge.

We urge you to attend this very special affair.
