Dear Dr. Stewart,

Evidently, you have not forwarded to Dr. Wilson any of the later petitions or letters for sometime; and he should have them; for it seems he has much of the decision concerning the church at 22nd and Market. Will you please send them to him?

He has written me, explaining that he and Dr. Leon realized I was upset when they left me that day; and they knew something had happened to me, yet they left me, alone, without calling for help from anybody. I must have had a stroke, and people do die in strokes; yet those two ministers left me.

It is indicative of the heartless selfishness you-people have had toward us on Golden Hill, ever since S. Albert Smith planned what you are carrying out.

You ignore what a wrong you do us, in the name of religion.

It does not matter if you cause the death of me, or of Golden Hill, - it means nothing at all to you. Indeed, it is your determined plan, for nothing must stand in your way to give us away -

Violet Beck
