

5// giving birth to a baby - the question now is, when should a lady stop giving birth to 'children'?

- The issue in society of ladies having babies with no parenting skills. The number of teen-age births in this nation is staggering.

- This problem is compounded because of the changing social and political climate in this nation.

For example, welfare reform - In California the system has already begun to cut the welfare rolls. We all know that the system needed reforming, but to do it without much thought of the consequences is ill-responsible. To meet the demands of the welfare system reforms, our state of Calif. must come up with more than 500,000 thousands jobs.

6/a year for the next five years. The saddest part of the matter is that too many of the recipients of welfare are completely indifferent ~~to~~ ^{to} the consequences.

3. Corporate and government downsizing - Much of this comes about because of the desire to make or save money. Yet, this could directly affect your future job and economical ~~future~~ ^{prosperity}. That's one of the reasons for our business taking so many of our jobs to the cheap labor markets abroad.

4. We are faced with the continue crisis in public education. As one who has experienced involvement at both levels of education - I can admit that education has its problems, like all the other in -
