

Today again we pay homage to Mothers
 and womanhood! Yet today, never has the burden
 been so heavy for our ladies as it is today. Trials and
 tribulations were the pass words for some of our mothers
 as we were growing up. Yet ~~as~~ I look at Society's condition
~~now~~ today - the problems faced by my Mother seems like
 a girl scout party - Maynard Childrent, self family responsibility,
 teenage pregnancy, a complete breakdown in respect
 and appreciation - I you name it The Lady today has more
 than her share -
