CWSS RESEARCH COMPONENT BUDGET

The Research Component of CWSS is currently engaged in three important areas of investigation, complementing the activities of the other components of CWSS. These areas of research are: (a) the Educational Status and Potential of Women in Prisons, (b) Drug Abuse Among Women Students on San Diego Campuses, and (c) research leading to the annotation of the first International Bibliography of Women Writers. This important work has been progressing much too slowly, because of its complete dependence on volunteers and because of severe lack of equipment. We wish to complete it as soon as possible and to proceed with research in other long-neglected areas.
