Hon S. T. Black

San Diego

State Normal School

Dear Sir

Your favor of Dec 30th to hand and in reply would say to forward draft to First Nat. Bank. Los Angeles

We also enclose with this a small bill for extra work which has been accumulated since work started on the school. The water item Mr Guy can explain also the corner stone. The extra excavating, concrete and brick work in foundations a reference to the plans, and ground as it is now and the work on building will show that the elevations do not show it so low down. There will also be some more extra work on steps from basement toilet rooms, but as they have not been put in yet can not give you their cost. The item of work on wings was ordered by Architects and can be shown where work was done.

All of which is respectfully submitted for consideration to the Hon Board of Trustees
